Mr. A. J. Montgomery, Asst. Secretary
R. Olsen Oil Company
2811 Apco Tower
Oklahoma City, Oklahoma

Dear Mr. Montgomery:

We have just received from our Santa Fe office two sets of Form C-110, Certificate of Compliance and Authorization to Transport Oil.

Upon checking our records we find that the R. Olsen Oil Company does not, according to our reports, operate a Bates and Blankenship well. If this form was to designate the change of operator it should be stated.

May I also bring you attention to the fact that the "Kind of Lease" refers to the land status; ie State, Government or Fee. Also, if the Bates #1 Well refers to a Bates well formerly operated by the Uscon Drilling Company will you please check your unit location more closely. The reports of the Uscon Drilling Company show this well to be located in the SW/4 of SE/4 which would be Unit "O".

In the future please mail these forms direct to the Oil Conservation Commission, Box 1545, Hobbs, New Mexico. Thank you for your attention to this matter.

Very truly yours,

OIL CONSERVATION COMMISSION
