Re: Application for NSP Unit  
Jack Federal 19 No. 4 - 19-24S-37E,  
Lea County, New Mexico

Gentlemen:

Forwarded herewith in triplicate is an application for an 80-acre non-standard unit for our Jack Federal 19 Well No. 4. We were informed by the Hobbs District office that well No. 2 located in the SE/4 NW/4 Section 19 has been reclassified as a Jalmat gas well effective July 1, 1969. Rather than establish a separate gas proration unit for that well, we propose to leave that well shut-in and allocate its 40-acre tract to No. 4 which is already connected to El Paso Natural Gas Company's gathering system.

It is respectfully requested that this non-standard unit be approved and that its effective date coincide with the reclassification of well No. 2 which is July 1, 1969. Your further handling and approval of this application will be sincerely appreciated.

Yours very truly,

A handwritten signature in dark ink, appearing to be "S. C. [unclear]".
