## MULTI-POINT BACK FRESSURE TEST

New Mexico Oil Conservation Commission P. O. Box 871 Santa Fe, New Mexico

Attention: Mr. Elvis A. Utz Gas Engineer

Dear Mr. Utz:

Enclosed please find the results of Multi-Point Back Pressure Test, as reported on the Commission Form C-122, on The Texas Company's J. F. Black Lease Well No. 2, located in the Jalmat Pool. This is a re-test as the first test was unsuccessful. The gas from this well is delivered through a compressor, thereby making it more difficult to obtain a good test.

We are enclosing an extra copy of the test for you to indicate received. Following, please return the extra copy to us in the self-addressed envelope enclosed.

Yours very truly,

T & Baken

L. I. Baker
