Re:               Reclassification of Well  
                  Jack B-26 #3-L  
                  Section 26, T24S, R37E  
                  Jalmat Pool

Gentlemen:

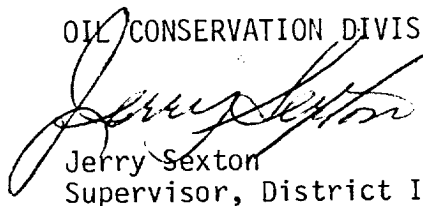

Due to the recently submitted gas/oil ratio test for the above-referenced well, the well will be reclassified to a gas well in the Jalmat Gas Pool effective September 1, 1987, and the oil allowable cancelled that date.

If for some reason you feel this test does not reflect the proper classification of the well, please submit another test for our consideration by July 28, 1987.

If the well is to be reclassified, please furnish this office with an acreage dedication plat outlining the acreage dedicated to this gas well. Also, if transporters change as a result of reclassification, please submit Form C-104 so indicating. Please advise this office if the gas is separately metered.

Very truly yours,

OIL CONSERVATION DIVISION
