New Mexico Oil Conservation Commission
Santa Fe, New Mexico

Gentlemen,

Wolfson Oil Company respectfully applies for a non-standard gas proration unit for its E.E. Jacks B-26 No. 3 well located in Section 26, Township 24 South, Range 37 East, Lea County, New Mexico.

This well is located on a 120 acre lease and application has been submitted to dual the well in the Langlie-Mattix field in the Queen formation and the Jalmat field in the Yates formation. The Queen formation has been allocated the normal 40 acre unit. The Yates formation in the Jalmat field has 160 acres as the basic proration unit. The 120 acres that we assign our Jacks B-26 No. 3 is within the horizontal limits of the Jalmat field therefore can be reasonably assumed to be productive.

Your early consideration of our request will be appreciated.

Yours very truly,

H. G. Freedman
Production Engineer
