FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Well was completed by Gulf Oil Corporation with 5-1/2" liner set on bottom and top of liner about 85 feet below 7" casing shoe. Operation of the well has been seriously interfered with by caving of formation above liner. We propose to clean well out end run about 115 feet additional 5-1/2" liner. If production is not improved by cleaning out, may deepen well.
