Re: Langlie Mattix Woolworth #103

Dear Sir:

This letter is in reply to your letter dated July 12, 1982, in which you requested a proposed plan of action on the LMWU wells #103 and #707. Upon approval of all working interest partners and after an offer of the wellbore has been made to the original owner of the well and he has no objections, we will plug and abandon LMWU #103. Notification before and after the job will be given to you along with the appropriate division forms. LMWU #707 has already been discussed with you as to its plan of action in a letter dated August 26, 1982.

I would like to apologize for this notification being five days late. Approval from the partners has been slow and tedious and has not been completed as of yet. If you should have any questions regarding this action please contact me.

Sincerely,

Randall L. Howell

Randall L. Howell
Associate Petroleum Engineer
