OIL & GAS INSPECTOR

INTERNATIONAL CONGRESS
OF PHYSIOLOGISTS

The International Congress of Physiologists, which was held in London, England, from August 1 to 10, 1934, was the first of its kind since the Congress of 1906. It was organized by the British Association of Physiologists, and was attended by 150 delegates from 25 different countries. The Congress was held in the Royal Society, and was presided over by Sir John Scott Burdon Sanderson, F.R.S., who was also the President of the British Association of Physiologists.

REPORTS OF THE COMMITTEES

The following reports were presented at the Congress: The Committee on the History of Physiology, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the history of physiology from the time of the ancient Greeks to the present day. The Committee on the Physiology of the Nervous System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the nervous system. The Committee on the Physiology of the Circulatory System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the circulatory system.

The Committee on the Physiology of the Respiratory System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the respiratory system. The Committee on the Physiology of the Digestive System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the digestive system.

The Committee on the Physiology of the Excretory System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the excretory system. The Committee on the Physiology of the Reproductive System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the reproductive system. The Committee on the Physiology of the Endocrine System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the endocrine system.

The Committee on the Physiology of the Sensory System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the sensory system. The Committee on the Physiology of the Motor System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the motor system. The Committee on the Physiology of the Integrative System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the integrative system.

The Committee on the Physiology of the Immune System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the immune system. The Committee on the Physiology of the Reproductive System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the reproductive system.

The Committee on the Physiology of the Endocrine System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the endocrine system. The Committee on the Physiology of the Sensory System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the sensory system.

The Committee on the Physiology of the Motor System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the motor system. The Committee on the Physiology of the Integrative System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the integrative system.

The Committee on the Physiology of the Immune System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the immune system. The Committee on the Physiology of the Reproductive System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the reproductive system.

The Committee on the Physiology of the Endocrine System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the endocrine system. The Committee on the Physiology of the Sensory System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the sensory system.

The Committee on the Physiology of the Motor System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the motor system. The Committee on the Physiology of the Integrative System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the integrative system.

The Committee on the Physiology of the Immune System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the immune system. The Committee on the Physiology of the Reproductive System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the reproductive system.

The Committee on the Physiology of the Endocrine System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the endocrine system. The Committee on the Physiology of the Sensory System, which was presided over by Sir John Scott Burdon Sanderson, F.R.S., presented a report on the physiology of the sensory system.
