Gentlemen:

Following is a notice of intention to do certain work as described below at the Schermerhorn

Oil Corporation, Woolworth lease Well No. 2 in SE¹, NE⁴
Company or Operator Lease
of Sec. 28, T. 24 S., R. 37 E., N. M. P. M., Mattix Field,
Lea County.

FULL DETAILS OF PROPOSED PLAN OF WORK

FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS OF THE COMMISSION

Because of fairly low gas volumes available, and because of the desire to operate on as low a gas-oil ratio as possible, it is believed advantageous to employ the use of stage lift valves. It is proposed to use 13 of these valves, in conjunction with the packer already in use. One valve will be used below the packer (the packer to be set in and near the bottom of the 7" casing oil string), and the remaining 12 valves at approximately 250 foot intervals above the packer.
