The Texas Co.
Box 458
Hobbs, New Mexico

Gentlemen:

The latest gas-oil ratio test for your C. C. Fristoe "B" No. 1 in Unit E of Section 30, T-24-S, R-37-E indicates that the well has a ratio of 123,500:1.

In compliance with the provisions of Commission Order R-520 you are hereby advised that the oil allowable for the well will be cancelled effective September 1, 1958. This should give you sufficient time to apply for a non-standard proration unit and file Form C-128 showing the acreage to dedicated, in order that a gas allowable may be assigned.

Yours very truly,

OIL CONSERVATION COMMISSION

R. F. Montgomery
Proration Manager

1. The first step in the process of identifying a problem is to define the problem. This involves identifying the symptoms of the problem and determining the scope of the problem. Once the problem has been defined, the next step is to identify the causes of the problem. This involves identifying the factors that are contributing to the problem and determining the underlying causes. Once the causes have been identified, the next step is to develop a plan of action. This involves identifying the steps that need to be taken to solve the problem and determining the resources that will be needed to implement the plan. Once a plan of action has been developed, the next step is to implement the plan. This involves carrying out the steps that have been identified in the plan and monitoring the progress of the implementation. Finally, the last step in the process is to evaluate the results of the implementation. This involves assessing the effectiveness of the plan and determining whether the problem has been solved.

1944

the 1990s, the number of people in the world who are under 15 years of age is expected to increase from 1.1 billion to 1.5 billion. The number of people aged 65 and over is expected to increase from 200 million to 400 million. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion. The number of people aged 15 and over is expected to increase from 3.5 billion to 4.5 billion.
