Re: State A-32 #1
Sec. 32-24-37

Gentlemen:

We have received Form C-110 on your State A-32 showing a recompletion of this well from a Langlie-Mattix oil well to a Jalast gas well, however, we do not have Form C-104, which must be filed on any recompletion to another pay. In addition to this form, you will also need to file Form C-128, Gas Well Plat, and possibly an application for a non-standard proration unit, if the acreage dedicated to this well is less than 640 acres.

Yours very truly,

OIL CONSERVATION COMMISSION

Re: State A-32 41

Sec. 32-41-37

Gentlemen:

I have received Form C-110 on your State A-32 showing a recompletion of this well from a Langlie-Mattis oil well to a latent gas well. However, we do not have Form C-104, which must be filed on any recompletion to another pay. In addition to this form, you will also need to file Form C-128, Gas Well Test, and possibly an application for a non-standard production unit, if the acreage dedicated to this well is less than 640 acres.

Yours very truly,

OIL CONSERVATION COMMISSION

L. L. Fowler, Jr.
