**not**  
has been approved, however, since this well is:

- ( ) An unorthodox location,
- ( ) Located on an unorthodox proration unit,
- ( ) Outside the boundaries of a designated pool,

it will be necessary for you to;

- ( ) Comply with the provisions of Rule 4 of Commission Order \_\_\_\_\_
- ( ) Comply with the provisions of Rule 7 of Commission Order \_\_\_\_\_
- ( ) File Form C-123

Pending further Commission action this unit will be assigned an 0 acre allowable.

A. L. Porter, Jr.  
Proration Manager

ALP/pb

cc/ Transporter

Your Form C-104 on the above well shows 7" Csg. set @ 3092 and open hole to 3586 T.D. This would classify your gas well as an oil well since it exceeds the vertical limits of the Langmat Field. However, a form C-103 dated 6-26-45 described a plug back to 3420 ft. with perforations 2810-2895, and 3100-3154. The producing interval is within the Langmat Field. Please refile to show the correct status of the well. If you should need clarification, contact the undersigned @ Phone 3-4731, Hobbs.
