SANTA FE, NEW MEXICO

## Miscellaneous Reports on Wells

**RECEIVED**  
 SEP 20 1950  
 OIL CONSERVATION COMMISSION  
 HOBBS-OFFICE

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below.

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING

 Title

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part outlines the various methods and tools used to collect and analyze data. This includes both traditional manual methods and modern digital technologies, highlighting the benefits of each approach.

3. The third section focuses on the role of human resources in the data collection process. It discusses how training and support for staff can significantly improve the quality and reliability of the data collected.

4. The fourth part addresses the challenges and limitations of data collection. It identifies common issues such as data inconsistency, incomplete information, and the potential for bias, and offers strategies to mitigate these problems.

5. The fifth section provides a detailed overview of the data analysis process. It explains how the collected data is processed, cleaned, and then analyzed using various statistical and computational techniques to extract meaningful insights.

6. The sixth part discusses the importance of data security and privacy. It outlines the measures taken to protect sensitive information from unauthorized access and ensure compliance with relevant regulations and standards.

7. The seventh section explores the applications of the collected data. It shows how the data is used to inform decision-making, identify trends, and optimize organizational performance across different departments and projects.

8. The eighth part of the document provides a summary of the key findings and conclusions. It reiterates the importance of a robust data collection and analysis framework for achieving the organization's strategic goals.

9. The final section includes a list of references and a bibliography, citing the various sources and studies that informed the research and analysis presented in the document.
