

## NEW MEXICO OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

## NOTICE OF INTENTION TO DRILL

Notice must be given to the Oil Conservation Commission or its proper agent and approval obtained before drilling begins. If changes in the proposed plan are considered advisable, a copy of this notice showing such changes will be returned to the sender. Submit this notice in triplicate. One copy will be returned following approval. See additional instructions in Rules and Regulations of the Commission.

Bartlesville, OklahomaMarch 30, 1939

Place

Date

OIL CONSERVATION COMMISSION,  
Santa Fe, New Mexico.

Gentlemen:

DUPLICATE

You are hereby notified that it is our intention to commence the drilling of a well to be known as Phillips Petroleum Co.'s M. C. Woolworth Well No. 7 in NE/4

Company or Operator Lease Mattix Field, Lea County  
of Sec. 33 T. 24S R. 37E N. M. P. M. Section  
N. The well is 1980 feet (X) (S.) of the North line and 1980 feet  
(X) (W.) of the East line of Section

(Give location from section or other legal subdivision lines. Cross out wrong directions)

If state land the oil and gas lease is No. \_\_\_\_\_ Assignment \_\_\_\_\_

If patented land the owner is C. D. Woolworth

Address Jal., New Mexico

If government land the permittee is \_\_\_\_\_

Address \_\_\_\_\_

The lessee is Phillips Petroleum Company

Address Bartlesville, Oklahoma

We propose to drill well with drilling equipment as follows: Rotary

tools all the way

The status of a bond for this well in conformance with Rule 39 of the General Rules and Regulations of the Commission is as follows: Blanket Bond

We propose to use the following strings of casing and to land or cement them as indicated:

Size of Hole	Size of Casing	Weight Per Foot	New or Second Hand	Depth	Landed or Cemented	Sacks Cement
<u>13-3/4</u>	<u>10-3/4</u>	<u>35#</u>	<u>New</u>	<u>350</u>	<u>Cemented</u>	<u>300</u>
<u>8-5/8</u>	<u>7</u>	<u>24#</u>	<u>New</u>	<u>3350</u>	<u>Cemented</u>	<u>400</u>

If changes in the above plan become advisable we will notify you before cementing or landing casing. We estimate that the first productive oil and gas sand should occur at a depth of about 3350 feet.

Additional information:

APR 4 - 1939

Approved \_\_\_\_\_, 19\_\_\_\_\_  
except as follows:

Sincerely yours,

Phillips Petroleum Company  
Company or Operator

By DR. K. H. H. H. H. H.

Position Assistant Superintendent

Send communications regarding well to

Name C. P. Dimit, Vice President

Address Phillips Building  
Bartlesville, Oklahoma

The real number system is the set of all numbers that can be represented on a number line. It includes the rational numbers (fractions and decimals) and the irrational numbers (numbers that cannot be expressed as a fraction of two integers).

The real number system is denoted by  $\mathbb{R}$ .

The real number system is a complete ordered field.

The real number system is a complete ordered field. This means that it satisfies the following properties:

- 1. Closure: The sum, difference, product, and quotient of any two real numbers is a real number.
- 2. Associativity: The grouping of numbers does not affect the result of addition or multiplication.
- 3. Commutativity: The order of numbers does not affect the result of addition or multiplication.
- 4. Identity: There is a unique additive identity (0) and a unique multiplicative identity (1).
- 5. Inverse: Every real number has a unique additive inverse and a unique multiplicative inverse (except for 0).
- 6. Order: The real numbers can be ordered, and this ordering is compatible with the algebraic operations.
- 7. Completeness: Every non-empty set of real numbers that is bounded above has a least upper bound.

The real number system is a complete ordered field.
