# REPORT OF THE INTER-DEPARTMENTAL COMMITTEE ON THE PROGRESS OF THE WORK OF THE DEPARTMENT OF THE INTERIOR

1900-1901

## REPORT OF THE INTER-DEPARTMENTAL COMMITTEE ON THE PROGRESS OF THE WORK OF THE DEPARTMENT OF THE INTERIOR

The Committee on the Progress of the Work of the Department of the Interior, organized by the President in 1897, has the honor to submit herewith its report for the year 1900-1901. The Committee was organized by the President in 1897, and has since that time been engaged in a study of the various matters connected with the management of the public lands, and the general administration of the Department of the Interior. The Committee has held numerous public hearings, and has received many suggestions from the public, and from the various departments of the Government. The Committee has also conducted extensive research into the various matters connected with the management of the public lands, and has prepared numerous reports and recommendations. The Committee has found that there is a general feeling of dissatisfaction with the present management of the public lands, and that there is a need for a more efficient and economical system. The Committee has therefore prepared a series of recommendations, which it believes will result in a more efficient and economical management of the public lands.

The Committee has also found that there is a need for a more efficient and economical system of land surveying, and for a more efficient and economical system of land disposal. The Committee has therefore prepared a series of recommendations, which it believes will result in a more efficient and economical system of land surveying, and in a more efficient and economical system of land disposal.

### RECOMMENDATIONS OF THE COMMITTEE

The Committee recommends that the following measures be taken:

1. That the Department of the Interior be reorganized, so that the various matters connected with the management of the public lands, and the general administration of the Department, may be more efficiently and economically managed.

2. That a more efficient and economical system of land surveying be adopted, and that a more efficient and economical system of land disposal be adopted.

3. That a more efficient and economical system of land disposal be adopted, and that a more efficient and economical system of land disposal be adopted.

### RECOMMENDATIONS OF THE COMMITTEE

The Committee recommends that the following measures be taken:

1. That the Department of the Interior be reorganized, so that the various matters connected with the management of the public lands, and the general administration of the Department, may be more efficiently and economically managed.

2. That a more efficient and economical system of land surveying be adopted, and that a more efficient and economical system of land disposal be adopted.

3. That a more efficient and economical system of land disposal be adopted, and that a more efficient and economical system of land disposal be adopted.

4. That a more efficient and economical system of land disposal be adopted, and that a more efficient and economical system of land disposal be adopted.

5. That a more efficient and economical system of land disposal be adopted, and that a more efficient and economical system of land disposal be adopted.

6. That a more efficient and economical system of land disposal be adopted, and that a more efficient and economical system of land disposal be adopted.

7. That a more efficient and economical system of land disposal be adopted, and that a more efficient and economical system of land disposal be adopted.

8. That a more efficient and economical system of land disposal be adopted, and that a more efficient and economical system of land disposal be adopted.

9. That a more efficient and economical system of land disposal be adopted, and that a more efficient and economical system of land disposal be adopted.

10. That a more efficient and economical system of land disposal be adopted, and that a more efficient and economical system of land disposal be adopted.

11. That a more efficient and economical system of land disposal be adopted, and that a more efficient and economical system of land disposal be adopted.

12. That a more efficient and economical system of land disposal be adopted, and that a more efficient and economical system of land disposal be adopted.

13. That a more efficient and economical system of land disposal be adopted, and that a more efficient and economical system of land disposal be adopted.

14. That a more efficient and economical system of land disposal be adopted, and that a more efficient and economical system of land disposal be adopted.

15. That a more efficient and economical system of land disposal be adopted, and that a more efficient and economical system of land disposal be adopted.
