Attention: Mr. H. H. Wade

Gentlemen:

Reference is made to your letter of March 14, 1962, wherein you request temporary allowables to be assigned to the Paddeck, Blinbry, Drinkard, Diluro-Devonian, and Fusselman zones in your G. L. Erwin (b) MCT-2 Well No. 2, located in Unit J, Section 35, Township 24 South, Range 37 East, North Justis Field, Lea County, New Mexico. This well was previously approved a quintuple completion by Order No. R-2109 in the Drinkard, Siluro-Devonian, Fusselman, McKee, and Ellenburger zones.

Inasmuch as all of the proposed zones included in the subject well, with the exception of the Paddeck, have previously been approved in multiple completions in the area, this office has no objection to such temporary assignment of allowable as each new zone is brought in, with the exception of said Paddeck zone.

It is suggested that you make application for a hearing to amend Order No. R-2109 at your earliest convenience to conform to the actual completion of the well.

Very truly yours,

DANIEL S. NUTTER  
Chief Engineer
