(Note: Report results of multiple completion on Well
Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface bearings and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well has been shut down since May, 1963, because it became uneconomical to produce. Last rate of production was one (1) barrel of oil per day.

We have no plans at this time for either remedial work or plugging.

The Oiland Gas Operating Regulations provide that any well not used or useful for purposes of the lease should be plugged and abandoned. A Notice of Intention to Abandon must be filed for approval prior to commencing any plugging work.

18. I hereby certify that the foregoing is true and correct
