17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any
proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones perti-
nent to this work.)*

Tests have recently been completed on Westates Federal Well #6 which resulted
in finding casing leaks between 6954'-6629' and 4621'-4231'. The casing below
7019' tested to 1000 psi and held OK.

Due to the results of tests, final management approval was received to plug and
abandon the well.

At present time we are in the process of evaluating the best plugging procedure
and will submit the procedure in the near future.
