17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

The possible reason this well did not pass pressure test was because it has a Baker Model "AD-1" packer in it. This type packer holds pressure from the bottom up and not from the top down. As per conversation between K.R. Pulliam and Jerry Sexton on February 27, 1986, this packer will be changed whenever it becomes necessary to work on this well.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
