Hobbs, New Mexico

Gentlemen:

We are operating jointly with the Plains Production Company the J.B. Humphrey lease in Section 3, Township 25 South, Range 37 East, and, it was our understanding, when operations were commenced on this lease, that the forms required by your office would be prepared and submitted by the Plains Production Company.

We have just learned that, through a misunderstanding, Plains Production Company thought we were submitting the reports. As a consequence, no reports have been sent in on our wells numbered 2-A and 3-A.

We enclose herewith Notice of Intention to Drill on form 101 covering these two wells. Immediately upon receipt, from your office, of additional forms which we have previously requested, we will prepare and submit the additional reports required to date.

Yours very truly,

CULBERTSON & IRWIN, INC.
