RE: CHANGE OF OPERATOR

GENTLEMEN:

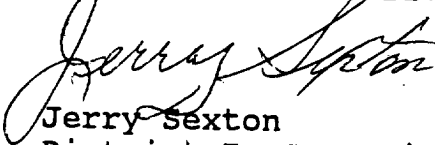

We have received your C-104 for change of operator on June 8, 1995, on the Langlie Jal Unit from Meridian Oil Inc. These form have not been approved at this time because you do not have a bond registered at our Santa Fe office.

Attached RULE 101 of Oil Conservation Division Rule & Regulation on bonding any person, firm, corporation or association who is going to drilled or acquired any oil, gas, or service well on privately owned or state owned lands within this state shall furnish to the Division, and obtain approval thereof, a surety bond running to the State of New Mexico in a form prescribed by the Division before operations begin.

If you have any questions on this matter, please call Diane Richardson (505) 827-8153 or Donna Pitzer (505) 393-6161. Please inform us as to your intention by September 11, 1995 or we will send these C-104 back to you without approval.

Yours very truly,

OIL CONSERVATION DIVISION
