S. GEOLOGICAL SURVEY
HOBBS, NEW MEXICO

Gentlemen:

The State of New Mexico Oil Conservation Commission has brought to my attention that a Sundry Notice was not filed on the converting of the subject well to a water disposal well.

The subject well was converted to a water disposal well in December, 1968 before the Langlie-Jal Unit was formed. At that time the well name was the Wells #4. When the Langlie-Jal Unit was formed, the subject well was renamed and connected to the system as a water injection well.

If any additional information is needed, please advise.

Very truly yours,

UNION TEXAS PETROLEUM, A Division
of Allied Chemical Corporation
