

NEW MEXICO STATE LAND OFFICE
SANTA FE, NEW MEXICO

DEPARTMENT OF THE STATE GEOLOGIST
NOTICE OF INTENTION TO TEST WATER SHUT-OFF

Notice must be given to the State Geologist or to the proper Oil and Gas Inspector at least five days before the test. It is desirable that a representative of the Department of the State Geologist witness the water shut-off before drilling into the productive sand whenever possible. If changes in the proposed plan are considered advisable, a copy of this notice showing such changes will be returned to sender. Submit this notice in triplicate.

Bartlesville, Oklahoma N. Mex., August 10, 1935

Mr. E. H. Wells

State Geologist,
Santa Fe, New Mexico.

Dear Sir:

You are hereby notified that we intend to test the shut-off of water in C. D. Woolworth Group 3

Well No. 1 in SW/4 SW/4 of Sec. 6, T. 35S, R. 37E
N. M. P. M., Cooper Oil Field Lea County,
on August 10 1935 2 3/8 in. 56 lb. casing was { cemented } in Anhydrite
formation at a depth of 1200 feet on August 7 1935
350 sacks of Tronox cement were used.

The method used in placing the cement was as follows: Halliburton

Fluid level will be bailed to a depth of 1200 feet and left undisturbed for at least 12 hours before your inspection.

Name D. R. Kewiten

Address Bartlesville, Oklahoma.

J. J. Vesely
State ~~Geologist~~ Oil and Gas Inspector.

THE UNIVERSITY OF CHICAGO
DIVISION OF THE PHYSICAL SCIENCES
DEPARTMENT OF CHEMISTRY

REPORT OF THE COMMITTEE ON THE
PROGRESS OF THE DEPARTMENT OF CHEMISTRY
FOR THE YEAR 1960-1961

The Department of Chemistry at the University of Chicago has been fortunate in having a very able and energetic head, Professor [Name], who has led the department through a period of rapid growth and development. Under his leadership, the department has expanded its research programs and has attracted a large number of new faculty members and students. The department is now one of the largest and most active in the United States. The following is a summary of the progress of the department during the year 1960-1961.

The department has been very active in research, and has published a large number of papers in the field of chemistry. The following is a list of the major research programs of the department:

- 1. Organic Chemistry: The department has been very active in the field of organic chemistry, and has published a large number of papers in this field. The following are some of the major research programs in organic chemistry:
- 2. Inorganic Chemistry: The department has been very active in the field of inorganic chemistry, and has published a large number of papers in this field. The following are some of the major research programs in inorganic chemistry:
- 3. Physical Chemistry: The department has been very active in the field of physical chemistry, and has published a large number of papers in this field. The following are some of the major research programs in physical chemistry:
- 4. Analytical Chemistry: The department has been very active in the field of analytical chemistry, and has published a large number of papers in this field. The following are some of the major research programs in analytical chemistry:

The department has also been very active in teaching, and has published a large number of papers in the field of chemistry. The following is a list of the major teaching programs of the department:

- 1. Undergraduate Teaching: The department has been very active in undergraduate teaching, and has published a large number of papers in this field. The following are some of the major teaching programs in undergraduate teaching:
- 2. Graduate Teaching: The department has been very active in graduate teaching, and has published a large number of papers in this field. The following are some of the major teaching programs in graduate teaching:
- 3. Professional Development: The department has been very active in professional development, and has published a large number of papers in this field. The following are some of the major teaching programs in professional development:
