OPERATIONS

New Mexico Oil Conservation Commission  
P.O. Box 871  
Santa Fe, New Mexico

Gentlemen:

We herewith make application in triplicate for an unorthodox gas proration unit of 160 acres consisting of the northwest quarter of Section 7, Township 25S, Range 37E, Lea County, New Mexico. This unit is to be assigned to our Harrison #1 Well in the Jalmat Pool located 660' from the north line and 660' from the west line of Section 7, Township 25S, Range 37E. We attach herewith three copies of the plat of this unit showing the acreage involved, the location of the well, and the offset ownership.

We wish to make the following statements in compliance with Order No. R-520:

1. Our Harrison #1 Well was completed on March 3, 1937 and was drilled in conformance with the rules and regulations in effect at that time.
2. This well is completed within the vertical limits and horizontal limits of the Jalmat Pool.
3. The location falls within the limits prescribed for a 160 acre unit by Rule 5 (a), Order No. R-520.
4. The unit consists of continuous and contiguous acreage.
5. The unit lies wholly within a governmental section.
6. In my opinion, the unit is reasonably productive of gas.
7. The unit does not exceed 5280' along its length or width.

8. We attach herewith signed waivers from the following offset owners:

Dalport Oil Corporation  
R. Olsen Oil Company  
Three States Natural Gas Company  
Ralph Lowe  
Clara T. Scott and First National Bank in Dallas, Trustee,  
in lieu of Kan-Mex Corporation (see attached waivers and  
correspondence).

9. We also notified the following offset owners by Registered  
U.S. Mail, but have not received a notice from them:

Phillips Petroleum Company  
Continental Oil Company  
Humble Oil and Refining Company

Attached herewith are registered receipts from these companies  
indicating that they did receive our correspondence.

10. In my opinion, this well will produce the allowable normally  
assigned to a 160 acre gas proration unit.

Yours very truly,
