OIL CONSERVATION COMMISSION

By [Signature]

Oil & Gas Inspector

SEP 8 1950

Commission Expires: Sept. 7, 1953

(See Instructions on Reverse Side)

INSTRUCTIONS

This form shall be executed and filed in quadruplicate with the Oil Conservation Commission at Santa Fe, New Mexico, covering each unit from which oil is produced. A separate certificate shall be filed for each transporter authorized to transport oil from a unit. After said certificate has been approved by the Oil Conservation Commission, one copy shall be forwarded to the transporter, one copy returned to the producer, and two copies retained by the Oil Conservation Commission.

A new certificate shall be filed to cover each change in operating ownership and each change in the transporter, except that in the case of a temporary change in the transporter involving less than the allowable production for one month the operator shall in lieu of filing a new certificate, notify the Oil Conservation Commission at Santa Fe, New Mexico, and the transporter authorized by certificate on file with the Commission, by letter of the estimated amount of oil to be moved by the transporter temporarily moving oil from the unit and the name of such temporary transporter and a copy of such notice shall also be furnished such temporary transporter. Such temporary transporter shall not move any more oil than the estimated amount shown in said notice.

This certificate when properly executed and approved by the Oil Conservation Commission shall constitute a permit for pipe line connection and authorization to transport oil from the property named therein and shall remain in full force and effect until

- (a) Operating ownership changes
- (b) The transporter is changed or
- (c) The permit is cancelled by the Commission.

If any of the rules and regulations of the Oil Conservation Commission have not been complied with at the same time this report is filed, explain fully under the heading "REMARKS."

In all cases where this certificate is filed to cover a change in operating ownership or a change in the transporter designated to move oil, show under "REMARKS" the previous owner or operator and the transporter previously authorized to transport oil.

A separate report shall be filed to cover each producing unit as designated by the Oil Conservation Commission.

September 6, 1950

Mr. Roy O. Yarbrough
Oil Conservation Commission
Hobbs, New Mexico

In re: US-357 Calley No. 1
Sec. 7-256-37E
Lea County, New Mexico

Dear Mr. Yarbrough:

We are enclosing a corrected copy of Form C-110 for your approval, and to clarify the status of this well, we give you the following information.

The oil is produced incidental to the high pressure gas that is delivered to the El Paso Natural Gas Company. This well is opened into the gas line so seldom because of the demand for gas at this season of the year that the well produces very little oil each month. The oil that is produced is kept in two 250-barrel tanks, and not having pipe line connections, this oil has been hauled away by tank trucks furnished by the Gulf Refining Company.

We now have our own transport trucks in our organization - the Howard Olsen Development Company, Drawer "Z" Jal, New Mexico, and we request your permission to haul the oil for the Gulf Refining Company with our trucks.

Very truly yours,

R. OLSEN OIL COMPANY
