Gentlemen:

The latest gas-oil ratio tests for your Woolworth No. 2 in Unit K of Section 8 and Woolworth "B" No. 1 in Unit D of Section 17, Township 25 South, Range 37 East indicate that the Woolworth No. 2 has a ratio of 270,000:1 and the Woolworth "B" No. 1 has a ratio of 110,700:1.

In compliance with the provisions of Commission Order R-520 you are hereby advised that the oil allowables for these wells will be cancelled effective September 1, 1958. This should give you sufficient time to apply for non-standard proration units and file Forms C-128 showing the acreage to be dedicated, in order that gas allowables may be assigned.

Yours very truly,

OIL CONSERVATION COMMISSION

R. F. Montgomery
Proration Manager
