7. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

Subject well was shut in during January, 1972, due to insufficient pressure to produce into the sales line. This well is incorporated in the South Langlie Jal Unit waterflood which Reserve Oil and Gas Company operates.

Due to this well's potential value to the South Langlie Jal waterflood, we are retaining this wellbore for possible deepening to the waterflood zone.

A one-year extension for temporary abandonment status is requested in accordance with Rule 202B.

*Expires 10/1/76*

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
