17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well was shut in during January, 1972, due to insufficient pressure to produce into sales line.

This well is located within the boundary of the South Langlie Jal Unit waterflood project which we operate. We are retaining this well for possible deepening to the waterflood zone.

It is requested that plugging and abandoning of this well be delayed at least two years since the well has potential value to the South Langlie Jal waterflood project.

Expires 10/1/75

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
