

HISTORY OF OIL OR GAS WELL

16-43094-1

U. S. GOVERNMENT PRINTING OFFICE

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of refilling, together with the reasons for the work and its results. If there were any changes made in the casing, state fully, and if any casing was added, state the date, the size and location. If the well has been dynamited, give date, class, position, and number. If plugs or bridges were put in to test for water, state kind of material used, position, and results of pumping or testing.

Well from 2920' to 2930'. Packer set at 2950'. Well was open 1 hour. Recovered 2 1/2' of gas out mud. Gas to surface in 2 minutes. Measured 1 1/2' of well shut in for 15 minutes. Shut in pressure 1100'.

Well from 2920' to 2945'. Recovered 12-1/2' as follows:

- 4' buff dense dolomite
- 4-1/2' porous stained dolomite
- 4' of saturated sand.

Cored from 2945' to 2963'. Recovered 10' of soft argillaceous saturated sand with oil and gas.

Ran gamma ray and neutron survey.

INSTRUCTIONS

1. Is this gas well a dual completion? Yes _____ No X
2. If the answer to Question 1 is Yes, are there any other dually completed wells within the dedicated acreage? Yes _____ No _____

A separate plat must be filed for each gas well, outlining the area dedicated to such well and showing the location of all other wells (oil and gas) within the outlined area.

Mail in duplicate to the district office for the district in which the well is located.
