Re: Form C-110
Stuart well No. 2

Gentlemen:

As of June 16, 1950, we filed in your office a Form C-110 on the captioned well located in Section 10, 25S, 37E, and designed "Culbertson & Irwin, Inc." as Company or Operator.

Our Lease Superintendent has now advised us the pipe line gauger questions this designation because of the fact that run tickets have been and should continue to be made out in the name of Culbertson & Irwin, Inc. and R. K. Stovall, the joint lease owners, and the gauger states that he cannot make out the run ticket in that form because of the fact that Mr. Stovall's name was not shown on the C-110.

We believe that the gauger is wrong regarding this technicality for we notice that the C-110 on well No. 1-A on the same lease also shows our Corporation as Operator and no question has previously been raised concerning that well. We wish to handle this in the easiest way possible and are sending a copy of this letter to Shell Pipe Line Company, at Hobbs, with the request that if they can do so, they notify the gauger that he may continue to make the run tickets for all wells on the Stuart lease in the name of Culbertson & Irwin, Inc. and R. K. Stovall. If it is necessary or advisable to do so, we will be glad to prepare new Forms C-110 to show both names.

Yours very truly,

CULBERTSON & IRWIN, INC.

(Culbertson & Evans)

At Mr Culbertson

In reply to your letter of June 26th re
your Culbertson & Evans well no 2 ad \$10
+ 255. R 37 E 2nd 60 after checking our file
I find that I approved a C 100 on this well
and the 12 1/2 inch. I will like to see the
transporter at that time, can't understand
why you would refuse to take the
oil at this date. If further information is
required will be glad to assist

Yours Truly

W. J. Yarbrough
