Re: Proposed Well of
Carl E. King Drilling Co.,
Lea County, New Mexico

Dear Mr. Warren:

Pursuant to our conversation over long distance, enclosed please find the Commission's drilling bond form 39-B for one well, which please make for \$5,000.00. Carefully follow the instructions at the top of the bond in order to preclude error and delay.

Also enclosed is a list of corporate sureties licensed to write such bonds in New Mexico. If you desire, you may have this bond written in your home state, but it should at least be countersigned by the surety company's resident New Mexico agent.

Very truly yours,

OIL CONSERVATION COMMISSION
