Re: Order No. R-2072

Gentlemen:

This is to acknowledge receipt of your letter of October 16, 1961, with which you forwarded the schematic diagram of the equipment installed in your Langlie-Federal Well No. 2, a dual completion in the Justis-Tubb-Drinkard and the Justis Blinebry Pools.

It is our understanding that although you had anticipated to complete the well as a triple completion and were authorized by Order No. R-2072 to do so, only two zones were found to be productive, and the well was dualled. The mechanical installation used is satisfactory to the Commission.

Very truly yours,

DANIEL S. NUTTER
Chief Engineer
