

NEW MEXICO OIL CONSERVATION COMMISSION
Santa Fe, New Mexico

MAY 5 1937

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

Remarks:

Name

Title

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is crucial for ensuring transparency and accountability in the organization's operations.

2. The second part of the document outlines the various methods and tools used to collect and analyze data. It highlights the need for consistent and reliable data collection processes to support effective decision-making.

3. The third part of the document focuses on the role of technology in data management and analysis. It discusses how modern software solutions can streamline data collection, storage, and reporting, thereby improving efficiency and accuracy.

4. The fourth part of the document addresses the challenges associated with data management, such as data quality, security, and integration. It provides strategies to overcome these challenges and ensure that the data is reliable and secure.

5. The fifth part of the document discusses the importance of data governance and compliance. It emphasizes that organizations must adhere to relevant regulations and standards to protect sensitive information and maintain trust with stakeholders.

6. The sixth part of the document explores the future of data management, including emerging trends like artificial intelligence and big data. It suggests that organizations should stay updated with the latest technologies to gain a competitive edge.

7. The seventh part of the document provides a summary of the key points discussed and offers recommendations for implementing a robust data management strategy. It stresses the importance of a holistic approach that covers all aspects of data handling.

8. The eighth part of the document includes a list of references and sources used in the research. It provides a clear path for readers who want to explore the topics in more detail.

9. The ninth part of the document contains a glossary of key terms and definitions used throughout the document. This helps in understanding the specific terminology used in the context of data management.

10. The final part of the document is a conclusion that reiterates the main findings and the significance of the research. It encourages organizations to take proactive steps to improve their data management practices.
