Dear Sir:

Sun Oil Company has its I. R. Stuart No. 2 Well completed in the Yates Gas Sand of the Jalmat Gas Field. This well was recompleted June 8, 1954, on a permit issued by the Commission prior to the issuance of Order R-520 and was completed in accordance with the rules in effect at the time.

All forms concerning the completion of this well have been previously filed with your office and I am attaching two copies of a plat showing the limits of the 160 acre gas unit surrounding this well. This well is located in the SW/4 of the NE/4 of Section 15, T-25-S, R-37-E, Lea County, New Mexico.

Very truly yours,
