Re: Reclassification of Well
Langlie "A" Federal #1-J Sec. 17, T25S, R37E
Jalmat T-Y-SR Pool

Gentlemen:

Due to the recently submitted gas/oil ratio test for the above-referenced well, it will be reclassified from oil to gas effective August 1, 1989.

If for some reason you feel this test does not reflect the proper classification of this well, please submit another test for our consideration by July 15, 1989.

If the well is to be reclassified to gas, please submit a revised C-102, acreage dedication plat, outlining the acreage dedicated to this gas well completion.

Please advise if this gas well gas is separately metered and in the event that a change of transporter occurs as a result of this reclassification, it will be necessary for you to submit Form C-104 so indicating.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
