Lewis B. Burlerson Inc.
ATT: Steven L Burlerson
P O Box 2479
Midland, TX 79702RE: Reclassification of Well
JALMAT TANSILL YATES SR
Woolworth WN, #1-A, Sec. 17-T25S-R36E

Gentlemen:

Due to the recently submitted gas/oil ratio test for the above-referenced well, it will be reclassified from a gas well to an oil well in the Jalmat Pool effective July 1, 1993 and the gas allowable cancelled effective that date.

This test does not conform with the previous characteristics of this well and if you feel this test does not reflect the proper classification of this well, please submit another test for our consideration by May 28, 1993.

If the well is to be reclassified to oil, please furnish this office with the following:

- 1.) C-102 outlining 40 ac. to be dedicated to oil well completion.
- 2.) C-104 showing reclassification from gas to oil and designating oil & casinghead gas transporters.

If you have further question, please feel free to contact Evelyn or Donna at District I office, Hobbs NM (505) 393-6161.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
District I, Supervisor

*Submitted per test results
gas*

JS:dp

5/21/93

Attached you will find a corrected filing of a C-116 on the above referenced well. The original C-116 filed, contained a clerical error, showing 4 BO instead of 2 BO. Should you have any further questions, feel free to call this office.

This is to replace C-116 filed April 23, 1993, which contained a typing error.															

Instructions:

During gas-oil ratio test, each well shall be produced at a rate not exceeding the top unit allowable for the pool in which well is located by more than 25 percent. Operator is encouraged to take advantage of this 25 percent tolerance in order that well can be assigned increased allowables when authorized by the Division.

Gas volumes must be reported in MCF measured at a pressure base of 15.025 psia and a temperature of 60° F. Specific gravity base will be 0.60.

Report casing pressure in lieu of tubing pressure for any well producing through casing.

(See Rule 301, Rule 1116 & appropriate pool rules.)

I hereby certify that the above information is true and complete to the best of my knowledge and belief.
