Gentlemen:

We are returning The enclosed Form C-103 for clarification. According to our records, the Gutman 18 Well No. 1 is located in Unit O of Section 18, T-25-S, R-37-E; the well in Unit J is the No. 2. We are unable to determine to which of the wells this form, as well as Form C-102 dated June 11, 1956 and Form C-103 dated April 11, 1957, refers.

Further, please refer to Form C-103 dated April 11, 1957 which shows the well to be off production. This form show it to be producing six barrels per day.

Yours very truly,

OIL CONSERVATION COMMISSION

E. J. Fischer  
Engineer, District 1
