12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

A recent injection profile log on our Christmas SWD #1 showed our well was not in compliance with our approval for disposal (Order No. R-5489) dated July 19, 1977. Further investigation of our wellfile revealed problems with casing integrity in the past (squeezed 2 holes in 1976). Since this well is almost 40 years old (drilled in 1953) it is our proposal to run a full string of 4-1/2" casing and cement to surface using a formation packoff show set inside 7" @ 2950'.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.

MADE IN U.S.A.

Hand-drawn sketch of a well casing. The casing is represented by two vertical lines. There are two cross-hatched sections, one on each side, representing valves or connections. To the right of the casing, the following text is written:

- $10\frac{3}{4}$  @ 325
- EST
- 2975 - 3005
- 7" @ 3212'
- TD @ 3285'

Hand-drawn diagram of two vertical shafts. The left shaft has a cross-hatched section near the bottom. The right shaft has a cross-hatched section near the bottom and a section labeled 'N' near the top. Annotations include:

- 10<sup>3</sup>/<sub>4</sub>" @ 325'
- 4 1/2" @ 2900'
- 2975-3005
- 7" @ 3212
- TD @ 3285'
