RE: BATES #1, UNIT L, S20-T25S-R37E

Gentlemen:

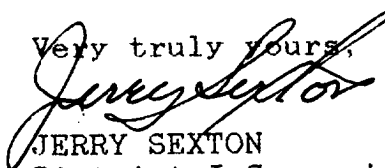

The above referenced plugged well site has recently been inspected by an Oil Conservation Division Representative, in an attempt to release the location.

As a result, the inspector found that the following items need to be completed before the location can be released.

1. Remove 4' pipe and wellhead from location.
2. Remove barbed wire fence from location.

When the above items have been completed please contact Jerry Sexton at 505-393-6161 or sign the bottom portion of this letter and return it to our address stated above.

Very truly yours,

JERRY SEXTON
District I Supervisor
