

**NEW MEXICO OIL CONSERVATION COMMISSION**  
**Santa Fe, New Mexico**

**MISCELLANEOUS REPORTS ON WELLS**

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF CASING SHUT-OFF	<b>X</b>	REPORT ON DEEPENING WELL	
REPORT ON RESULT OF PLUGGING OF WELL			

Dallas, Texas.      Dec. 18, 1937.

Date

OIL CONSERVATION COMMISSION,  
 Santa Fe, New Mexico.

Gentlemen:

Following is a report on the work done and the results obtained under the heading noted above at the \_\_\_\_\_

**SUN OIL COMPANY**      -      **B. T. Lanehart**      Well No. **2**      in the  
 Company or Operator      Lease  
**SE/4**      of Sec. **20**      T. **25-S**      R. **37-E**      N. M. P. M.,  
**Langlie**      Field,      **Lea**      County.

The dates of this work were as follows: Dec. 15, 1937.

Notice of intention to do the work was [~~submitted~~] submitted on Form C-102 on Dec. 11,      19 37  
 and approval of the proposed plan was [~~obtained~~] obtained. (Cross out incorrect words.)

**DETAILED ACCOUNT OF WORK DONE AND RESULTS OBTAINED**

7" OD casing was tested for water shut-off by applying pressure of 1000 pounds, closing valves, and allowing to stand 30 minutes. Since the pressure did not drop more than 100 pounds during this period, the test was considered satisfactory.

7" casing was set and cemented at depth of 2829 feet.
