Enclosed are two copies of Amerada Petroleum Corporation's Form C-103 showing the Langlie-Mattix oil zone cemented off with 125 sacks regular neat cement in November, 1958.

February, 1966 - Pulled tubing which closed Baker Model "D" packer and closed off Langlie-Mattix gas zone. The only zone producing in this well is the Jalmat gas. The Langlie-Mattix gas is considered "dead" and we have no plans to re-complete in this zone.

18. I hereby certify that the information above is true and complete to the best of my knowledge and belief.
