13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Permian Resources, Inc. has made application with the Oil Conservation Division of New Mexico requesting authority to inject produced water into the Harrison #2, with the expectation that the lease can then be returned to production of oil and gas. A copy of the application document is attached herewith. Permian has also requested an agency hearing to resolve issues raised by the surface land owner. Permian has not received notice of the hearing docket and cannot proceed without OCD approval.
