OIL CONSERVATION COMMISSION
SANTA FE, NEW MEXICO

Marfa, Texas
(Place)

January 22, 1957
(Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the P. S. B. STU RT

(Company) A. R. EPPENAUER Well No. 2 in 80 (Unit)
1/4 of Sec. 22, T. 25-S, R. 31-JALMAT NMPM., Pool
(40-acre Subdivision)
LEA County.

FULL DETAILS OF PROPOSED PLAN OF WORK
(FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

Request is hereby made to plug off Queen Sand through 2 3/8" Tubing using PSI Plug to Blank Off and holding 1000 psi pressure to assure shut-off (Packer Leakage Test has previously been made and approved), open G. O. T. Sleeve at 2975 and produce Gas through Tubing. Seating Nipple in which PSI Plug will be installed is situated 2951. Tubing String will be tested for leakage simultaneously with pressurizing PSI Plug. By virtue of this same application request is also being made to temporarily abandon Queen Sand Formation and to temporarily abandon any rights to produce oil and or gas from that zone as conferred by Administrative order now extant.

Approved _____, 19____
Except as follows: JAN 29 1957

PACKER-SETTING AFFIDAVIT
(Dual Completions)

STATE OF TEXAS)
County of PRESIDIO) ss

A. R. EPPENAUER, being first duly sworn according to law, upon his oath deposes and says:

That he is of lawful age and has full knowledge of the facts herein below set out.

That he is employed by Self in the capacity of Owner and as such is its authorized agent.

That on January 7, 1957, he personally supervised the setting of a BROWN PS-4 in A. R. EPPENAUER'S's
(Make and Type of Packer) (Operator)

F. S. B. STUART Well No. 2, located in Unit
(lease)
Letter "C", Section 22, Township 25-S, Range 37-E, NMPM,
LEA County, New Mexico.

That said packer was set at a subsurface depth of 2968 feet, said depth measurement having been furnished by Halliburton Line.

That the purpose of setting this packer was to effect a seal in the annular space between the two strings of pipe where the packer was set so as to prevent the commingling, within the well-bore, of fluids produced from a stratum below the packer with fluids produced from a stratum above the packer. That this packer was properly set and that it did, when set, effectively and absolutely seal off the annular space between the two strings of pipe where it was set in such manner as that it prevented any movement of fluids across the packer.

A. R. EPPENAUER
(Company)

A. R. Eppenauer
(its Agent)

Subscribed and sworn to before me this the 14th day of January, AD, 1957.
