Re: Application to dually complete
A. R. Eppenauer's F.S.B. Stuart
Well No. 2
Langley - Mattix Pool, Lea County,
New Mexico

Gentlemen:

By means of this application the undersigned A. R. Eppenauer wishes to state the following:

1. That A. R. Eppenauer's F.S.B. Stuart Well No. 2 is located 660 feet South of the North line and 2310 feet East of the West line of Sec. 22, Twp. 25S, Range 37 E., Lea County, New Mexico. That it was completed in the Queen Sand formation on date of November 25, 1956, at a total depth of 3400 feet with 5-1/2" casing set and cemented through the Queen formation.
2. That attached Exhibit A shows the location of said well and the surrounding wells and lease holders.
3. That the applicant now desires to dually complete captioned well so as to produce oil from the Queen formation through the tubing and gas from the Yates Sand formation through the casing-tubing annulus in the following manner:
 - (a) Perforate the 5-1/2" casing at approximately 2900-3200 opposite the Yates zone.
2793-2932
 - (b) Set a production type packer below these perforations at approximately 3200 feet.
4. That the manner and method of dually completing, which is shown in the attached diagrammatic sketch marked Exhibit B, is mechanically feasible and will prevent co-mingling of fluids from the two reservoirs.

5. That copies of this application have been sent by registered mail to all operators holding leases within Section 22-25 S - 37 E, Lea County, New Mexico, and to operators of leases directly or diagonally offsetting the F. S. B. Stuart lease of the applicant as required by New Mexico Oil Conservation Commission Rule 112-A for dual completion. A list of the lease holders to whom copies of this application are being sent is shown herein for your reference.

It is therefore respectfully requested that the Conservation Commission grant the applicant permission to dually complete this well in accordance with the rules and regulations of the Commission.

Respectfully submitted,

E. E. Hopper

MISCELLANEOUS REPORTS ON WELL

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS	<input checked="" type="checkbox"/>	REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL		REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF CASING SHUT-OFF		REPORT ON DEEPENING WELL	
REPORT ON RESULT OF PLUGGING OF WELL
