January 29, 1948

Oil Conservation Commission  
Attention, Mr. Roy Yarborough  
Hobbs, N.M.

Dear Mr. Yarborough:

Enclosed herewith is corrected application for re-working the Community well. Please cancel the one dated January 23, as I got the information wrong on a phoned telegram from Mr. Eppenaer. I tried to call you since Monday night when I discovered the error but all telephone lines to Hobbs were reported out of order, and have been since that time until today.

Am sorry we couldn't get straight on this well at first by Mr. Eppenaer decided to deepen it a little before shooting it and also to increase the shot to take care of the deepened section, after filing the first notice on it.

Will thank you to mail a copy of the approved notice to Mr. Curtis at Jal,

Yours very truly,

HET: hs
