

WIMBERLEY SAMPLE LOG (CONT'D)

2800-10	Cement
10-20	Cement
20-30	ditto inc. dolomite
30-40	ditto
40-50	Dolomite F xyl. lithographic
50-60	ditto (Fine grained matrix with large drk. brown dolomite crystals imbedded)
60-70	ditto
70-80	ditto Slight show oil. Very poor to no porosity.
80-90	ditto
90-00	ditto
2900-10	Lost cones in hole. Went fishing with Hobbs Core head to clean up hole
	2909-11 Recovered 1 1/2 ft. saturated dolomite as described above. Good show oil and gas. Porosity very poor.
10-15	ditto (Top of this Oil Show 2985) Ran drill stem test with packer set at 2990. Recovered 60 ft. oil and gas out mud.
15-30	Anhydrite gry-blue semi translucent
30-40	Dolomite F xyl. 40% Sand very fine 60% Good show oil and gas in samples.
40-50	ditto (Well tried to blow out 2930-40) Top Knight Sand 2930.
50-60	Sand fine clustered and Dolomite fine xyl. Fair show oil and gas.
60-70	ditto
70-80	ditto
80-90	Dolomite cream dense lithographic.
90-00	ditto trace sand (Prob. Sand caving)
3000-10	Dolomite tan to gry lithographic dense.
10-20	ditto
20-30	ditto
30-40	Dolomite Buff to Cream litho.
40-50	ditto 20% Sand black clustered very fine
50-60	ditto
60-70	Dolomite Buff to Cream Litho.
70-80	ditto trace Anhydrite
80-90	ditto
90-00	Dolomite Buff and gry-green Litho.
3100-10	ditto
10-20	ditto trace sand black
20-30	ditto
30-40	ditto Sand shows oil stain
40-50	Dolomite Buff to Cream dense
50-60	Dolomite wht to Cream Litho.
60-70	ditto
70-80	ditto
80-90	ditto
90-00	ditto
3200-10	ditto
10-20	Dolomite Milk whit. Lithographic (Shows almost 100% Florescence)
20-30	ditto
30-40	ditto (Decrease in Florescence)
40-50	ditto
50-60	ditto trace shale green
60-70	Dolomite lgt. pink Lithographic.
70-80	Dolomite lgt. pink lithographic.
80-90	ditto
90-00	ditto
3300-10	ditto trace fine sand gry
10-20	ditto
20-30	ditto trace shale green
30-40	Dolomite white Lithographic Fair Odor and Show of Oil
40-50	ditto No odor
50-60	Dolomite lgt. pink to white Lithographic
60-70	ditto
70-80	ditto
80-90	ditto to lgt tan
90-00	ditto

2800-10	Cement
10-20	Cement
1000-20	ditto fine dolomite
20-40	ditto
40-50	Dolomite & xyl. lithographic
50-60	ditto (fine grained matrix with large drk. brown dolomite crystals imbedded)
60-70	ditto
70-80	ditto slight show oil. Very poor to no porosity.
80-90	ditto
90-00	ditto
2800-10	lost cones in hole. Went fishing with hopes for lead to clean up hole. 2800-11 recovered 1 1/2 ft. saturated dolomite as described above. Good show oil and gas. Porosity very poor.
10-12	ditto (top of this oil show 2888) (can drill stem seal with packer set at 2880. Recovered 60 ft. oil and gas cut mud.
10-30	Anhydrite grey-blue semi translucent
30-40	Dolomite & xyl. 40% sand very fine 60% good show oil and gas in samples.
40-50	ditto (well tried to blow out 2820-40) Top Knight Sand 2820.
50-60	Sand fine clustered and dolomite fine xyl. Fair show oil and gas.
60-70	ditto
70-80	ditto
80-90	Dolomite cream dense lithographic.
90-00	ditto trace sand (Prob. sand saving)
2000-10	Dolomite tan to grey lithographic dense.
10-20	ditto
20-30	ditto
30-40	Dolomite buff to cream litho.
40-50	ditto 30% sand black clustered very fine
50-60	ditto
60-70	Dolomite buff to cream litho.
70-80	ditto trace anhydrite
80-90	ditto
90-00	Dolomite buff and grey-green litho.
2100-10	ditto
10-20	ditto trace sand black
20-30	ditto
30-40	ditto sand shows oil stain
40-50	Dolomite buff to cream dense
50-60	Dolomite white to cream litho.
60-70	ditto
70-80	ditto
80-90	ditto
90-00	ditto
2200-10	ditto
10-20	Dolomite all white lithographic (Shows almost 100% fluorescence)
20-30	ditto
30-40	ditto (Decrease in fluorescence)
40-50	ditto
50-60	ditto trace shale green
60-70	Dolomite lgt. pink lithographic.
70-80	Dolomite lgt. pink lithographic.
80-90	ditto
90-00	ditto
2300-10	ditto trace fine sand grey
10-20	ditto
20-30	ditto trace shale green
30-40	Dolomite white lithographic fair show and show of oil
40-50	ditto no odor
50-60	Dolomite lgt. pink to white lithographic
60-70	ditto
70-80	ditto
80-90	ditto to lgt tan
90-00	ditto
