Re: Wimberly WN #7-B
Section 23, T25S, R37E

Gentlemen:

We have received your completions forms covering the deepening of the above-referenced well indicating it has been placed back on production as a downhole commingled Justis-Blinebry and Justis-Tubb/Drinkard approved by DHC-658.

DHC-658 indicates that the percentages are to be allocated by the District Supervisor. In order that we may establish the percentages for each zone, please submit a gas/oil ratio test, Form C-116, breaking down the production from each zone.

If you have any questions, please contact Evelyn Downs at 505-393-6161.

Very truly yours,

OIL CONSERVATION DIVISION

Jerry Sexton
Supervisor, District I
