SUBJECT: AB Coates C Well #11

Texaco Exploration & Production Inc. respectfully requests an extension for TA status of the subject well.

Justification: Texacos engineering staff is currently evaluating this well as a possible workover candidate to recomplete in the Glorieta gas pool. This well will be plugged and abandon in the event that recompletion can not be economically justified. This well represents no environmental hazard as it passed the casing integrity test dated 6/12/97. (Copy of chart on file).
