RE: TEMPORARY APPROVAL OF SURFACE COMMINGLING

Texaco Exploration and Production Inc.

A. B. Coates C Federal

PGL-33 : Surface Commingle Justis Fusselman, Justis Ellenburger,
& Justis Montoya

Section 24, T-25-S, R-37-E

Lea County, New Mexico

Mr. Sexton,

Texaco E & P Inc. respectfully requests permission to temporarily add Justis Paddock test production to the referenced surface commingled sweet crude battery on the A. B Coates C Lease lease for 60 days to evaluate A. B. Coates Well No. 11, a recent Paddock completion that was anticipated to be only gas productive. The well is currently producing 1 BOPD, 7 BWPD, & 11 MCF. The current battery production averages 80 BOPD and the addition of the Paddock production will not reduce the current sweet crude value. Application for permanent commingle addition can be determined during the test period if granted.
