(Place)

(Date)

Gentlemen:

Following is a Notice of Intention to do certain work as described below at the.....  
**Western Natural Gas Company** **Wimberley** **3** **D**  
 (Company or Operator) Well No. in (Unit)  
**NW** **NW** **24** **25-8** **37-1** **Justis**  
 (40-acre Subdivision) 1/4 of Sec. T. R. NMPM., Pool  
**Lea** County.

**FULL DETAILS OF PROPOSED PLAN OF WORK**  
 (FOLLOW INSTRUCTIONS IN THE RULES AND REGULATIONS)

On April 9, 1962 Western Natural Gas Company conducted a packer leakage test in accordance with the N.M.O.C.C. rules and regulations and Order No. R-1122. The test revealed communication between the Justis Fusselman and Justis Brinkard zones. A temperature survey was run on April 24, 1962 showing a tubing leak in the Fusselman string of 2" tubing at 3160 feet.

Western Natural Gas is now engaged in correcting the communication problem in this well and will conduct a packer leakage test and gas-oil ratio tests at the earliest opportune time upon completion of this work. Gas-lift valves will be installed in the Fusselman string of tubing for artificial lift.

Approved....., 19.....
